

Memorandum of Understanding

Encouraged by

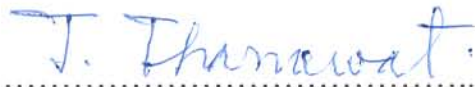

- The initiative of the Information and Communication Technology (ICT) implementation and business development in the north eastern region of Thailand and Khon Kaen as ICT City
- The expanding contacts and exchanges between Sweden and Thailand in the social, cultural, educational and business interests
- The initiative of Swedish Thai Chamber of Commerce to intensify especially trade and business relations in different areas
- The aim to establish a framework for co-operation in the Information and Communication Technology (ICT) spheres

The signing parties of this memorandum of understanding (MOU) agree on the following:

- Support the establishment and progress of E-Saan Software Park in Khon Kaen and Khon Kaen ICT City by encouraging and coordinating Swedish and Thai authorities, organizations and companies to participate in the development of the projects.
- Encourage the fulfillment of the present ambitions to arrange training for trainers in Thailand and/or Sweden, exchange of academics, general staffs and students for the purpose of training and development in this region.
- Promote any Swedish-Thai co-operated project by private sector and/or public sector, which could lead to the investment, implementation and development of ICT in the north east region so as to be the potential activities to realize Khon Kaen to ICT City.

The signing parties of this Memorandum of Understanding (MOU) are fully aware of that each signing party is acting with the highest ambitions within the limits of each party's regulations and responsibilities in the interest of promoting the strongest possible co-operations between Sweden and Thailand.
