

Agreement of Cooperation
between
Guangxi University of Chinese Medicine, China
and
Khon Kean University, Thailand
on
Joint Laboratory of Sino-Thai Traditional Medicine

Party A: Guangxi University of Chinese Medicine, China(GXUCM)

Party B: Khon Kaen University, Thailand (KKU)

Guangxi University of Chinese Medical (GXUCM) or Party A of the People's Republic of China and Khon Kaen University (KKU) or Party B of the Kingdom of Thailand, recognizing the need to promote and strengthen the friendly relations existing between the two universities, desiring to promote cooperation in the fields of scientific research, with friendly negotiation, Party A and Party B come to the following agreement:

1. Goal of the cooperation

Both sides jointly establish an advanced Sino-Thai Traditional Medicine Laboratory on the basis of research orientation consistency, resources sharing and mutual benefits.

2. Research content of the joint laboratory

Aiming at tumor, metabolic diseases, immunological diseases, senile diseases and other common diseases, researches will be conducted in the area of drug effect, substance basis, quality standard and health product development of the commonly-used traditional medicines of China and Thailand.

2.1 Pharmacodynamic evaluation on Sino-Thai traditional medicines with the activities of anti-tumor, blood glucose reduction, immune system regulation and anti-Alzheimer's Disease.

2.2 Substance basis and mechanism researches of Sino-Thai traditional medicine for anti-tumor, blood sugar reduction, immune system adjustment and the treatment of Alzheimer's disease.

2.3 Health product development of Sino-Thai traditional medicine on anti-tumor, blood glucose reduction, immune system adjustment and the treatment of Alzheimer's disease.

3. Key arrangement of the laboratory

3.1 Aiming at the same research goals, the facilities of the laboratory should be set up in both parties, and are open to each other and other partners in China, Thailand and any other countries.

3.2 With taking advantages of the resources of both sides, both parties will work together on the application and implementation of any potential research projects.

3.3 The laboratory will also serve as the base of industrialization, research visit, and student training.

4. Administrative body of the laboratory

4.1 The administration of the laboratory will be co-chaired by the appointed director from both sides. Professor Deng Jiagang from Guangxi University of Chinese Medicine will hold the post of laboratory director in China, Assoc. Prof. Dr. Jintanaporn Wattanathorn from Faculty of Medicine, Khon Kean University will hold the post of laboratory director in Thailand.

4.2 Office secretaries and contacts for the administrative affairs in each side should be appointed by the director of each party.

4.3 An expert committee with experts from both parties should be found for the analyzing, checking, and consulting of research projects. The members of the committee should be decided in further discussion.

5. Main task of the laboratory

5.1 Exchange visits and communication. Exchange visits and seminars will be held on a regular basis under the framework of the joint laboratory. Regular visits and seminars should be organized at least once a year. Focusing on introducing the latest

research progress and trends in each side, academic lectures by invited experts from China and Thailand should be held at least once every three months.

5.2 Talent cultivation. It is the associated laboratories' responsibility to organize graduate project study and internship training for the undergraduates and postgraduates of both parties. The laboratories will also arrange short-term research visits for young researchers to the laboratory of the other party.

5.3 Project research. The laboratory will be responsible for the application and implement of scientific research projects in China and Thailand.

5.6 Work planning. The laboratory will make plans and summaries annually, aim at the deepening and expanding of cooperation between the two parties, function as a bridge of exchange and communication.

6. Others

6.1 Intellectual property. In the associated laboratories, the intellectual property achieved by the sole investment of any party belongs to that party, while those achieved by the joint investment of both parties will be shared by both. Detailed intellectual property agreements will be defined explicitly in the implementation contract or consignment development contract of specific research project.

6.2 This agreement shall come into effect on the date of signature and shall remain valid for a period of five years.

Written in English, this agreement is with 4 originals. Each party holds two.
