ADDENDUM TO COOPERATION AGREEMENT

The Faculté de Chirurgie Dentaire de Strasbourg (Strasbourg School of Dental Surgery in France) and the Faculty of Dentistry, Khon Kaen University (in Thailand) hereby agree to determine the item concerning medical treatment or occupational risk insurance for occupational-related injuries in the event of clinical training, based on Article 5, Paragraph 3 of the COOPERATION AGREEMENT which both institutions concluded.

1. In the event a student sustains an exposure to potentially infectious material while participating in the clinical training, the host establishment agrees to provide the student the following services.

- Access to the host's employee health service and/or emergency department as soon as possible after the injury;
- Emergency medical care following the injury;
- Initiation of HBV, Hepatitis C (HCV) and HIV protocol as indicated;
- HIV counseling and appropriate testing as indicated.

2. In the event of clinical training, the host establishment agrees to provide the student with gratis medical treatment or occupational risk insurance for occupational-related injuries, particularly for the risks related to blood exposure, equivalent to those provided for the students of the host school.

This Addendum is established in two French language originals and two English language originals, all of which shall be deemed authentic.
